Subject: Do As I Do, Not As I Say

Dear Ms. Duarte;

How can the Federal Government award contracts to those companies or corporations that don't abide by the law! Any company or corporation should be following the law in how their company runs! So if a company or corporation is not doing things by the book, they definitely should not be awarded any contracts!!! That's one of the problems in raising kids these days. So many parents tell their children to "do as say, not as I do."

When in fact, shouldn't it be, "Do as I do." Setting the better example. Kids learn visually much faster and easier than audibly. Sort of the same thing with the Federal Government. Set the better example you guys!! This, I would think, also might deter companies or corporations from being on the sly. Especially with our tax dollars!!!! Get a grip and wake up!!!! Set the example for principles!!!!

Cordially yours,

Jennifer Lightfoot
